

Notebook Webcam

DICTOA's webcam Contact is the perfect Notebook camera for all those who want to stay in „Contact“ with their environment while on the go. Specially designed for Notebooks, this camera is operable in an instant thanks to its small size and the practical clip. With the variable clamp, Contact can easily be mounted on any kind of Notebook monitor. The resolution of 640 x 480 pixels provides the camera with razor-sharp images and is compatible with all up-to-date video-chat clients.

A perfect overview is provided by the pivotable axis which can be turned by 360 degrees. Additionally, Contact can be adjusted horizontally, thus finishing up with "blind spots". The user's guide ensures easy usability of the camera and the digital zoom (driver CD) underlines the versatile use of Contact. With these user-friendly features, Contact presents itself als the perfect visual companion for travels.

- 350K pixels
- Digital zoom
